SNATCH *rummy*

SNATCH RUMMY NEWS | October 17, 2026

Your Table Is Calling

You stepped away. Someone finished their turn. Now it’s yours.

Snatch Rummy can send a notification straight to your phone when your turn begins. Tap the alert to return to your table and pick up where you left off.

On iPhone, add the game to your Home Screen, open it from the icon, and allow notifications.

On Android, open the game in Chrome and allow notifications. Adding it to your Home Screen is optional.

Turn alerts are available for each player at an online table. Enable them on the device you want to use.

A little less checking your phone. A little more knowing when you’re up.

Your cards are waiting.
